

Scenario

Context:

- Class of 20 level 2 students
- Students are aged 16-18 years old
- Standard classroom with plenty of tables and chairs plus access to PCs
- 1 hour lesson
- Mixed ability class but mainly of average ability
- One student has a slight sight impairment, another is a poor reader, two are very able and expected to achieve top grades
- Most are well motivated and keen to learn.
- 2 students were absent last lesson

Task:

- Choose a topic from the subject you will be teaching
- Identify 3 learning objectives you would wish to achieve in the hour
- Draft a plan for the lesson to meet the learning objectives and the needs of the group.
- Make it clear how you would want the students to work – eg in groups, pairs, individually – and on what type of activities

Please bring the plan with you to the interview to explain its content and why you have planned it in this way.
