Safeguarding Policy and Procedures

Safeguarding Statement

Nescot College recognises our moral and statutory responsibility to safeguard and promote the welfare of children, young people and adults at risk of harm in our care. We endeavour to provide a safe and welcoming environment where students are respected and valued. We are alert to the signs of abuse and neglect and the Safeguarding Policy and Procedures will incorporate a wide range of risks we need to safeguard against. This includes the prevention of radicalisation which is listed as a specific safeguarding issue and is addressed by the Government PREVENT strategy.

Terminology

Safeguarding and promoting the welfare of children is defined as: protecting children from maltreatment; preventing impairment of children's mental and physical health or development; ensuring that children are growing up in circumstances constant with the provision of safe and effective care; and taking action to enable all children to have the best outcomes.

Abuse: could mean neglect, physical, emotional, sexual, child on child or a combination of these. Further explanations can be found in Appendix 1

A child: is defined as under the age of 18 years

An Adult at Risk is defined as someone 18 years of age or over who is or may need to receive community care services by reason of mental health or other disability, age or illness and who may be unable to take care of themselves or protect themselves against significant harm or exploitation

Prevent: The Prevent Strategy has three main objectives: responding to the ideological challenge of terrorism and the threat we face from those who promote it; preventing people being drawn into terrorism and ensure they are given appropriate advice and support; working with sectors and institutions where there are risks of radicalisation.

Students: For the purpose of this policy and in the context of a post 16 environment, children (including those aged under 5 enrolled at Nestots), young people and adults at risk will be referred to as students with appropriate adaptations applied to the procedures.

Staff: Applies to all those working for or on behalf of the College, full or part time in either a paid or voluntary capacity including, for example, members of the Governing Body, visitors, contractors, sub-contracting partners, supply and franchised staff.

The Safeguarding Policy and Procedures apply to all students and staff.

Introduction

This policy has been developed in accordance with the principles and guidance of the; Children Acts 1989 and 2004; Education Act 2002; Working Together to Safeguard Children 2018; Keeping Children Safe in Education 2022; What to do if a child is being abused 2015; Surrey Safeguarding Children Partnership and SSCP Procedures Manual; Safeguarding Vulnerable Groups Act 2006; The Care Act 2014; Surrey Adult Safeguarding Board; Counter-Terrorism and Security Act 2015; Prevent Duty Guidance 2015; Guidance for safer working practice for those working in education settings 2015.

Nescot College takes seriously its responsibility to safeguard and promote the welfare of students and to work together with other agencies to ensure that adequate arrangements are in place within our college to identify, assess, and support students who are suffering harm.

Policy Aims

- To demonstrate the College's commitment with regard to safeguarding to students, parents and other partners.
- To provide an environment in which students feel safe, secure, valued, respected and feel confident to, and know how to, approach adults if they are experiencing difficulties, believing they will be effectively listened to.
- To raise the awareness of all staff, of the need to safeguard students and of their responsibilities in identifying and reporting possible cases of abuse.
- To provide a structured framework and procedure which will be followed by all staff in cases of suspected abuse ensuring consistent good practice across the College.
- To provide a systematic means of monitoring students known, or thought to be at risk of harm, and ensure we, the college, contribute to assessments of need and support packages for those students.
- To develop and promote effective working relationships with other agencies.
- To ensure that all staff working within the College, have been checked for their suitability, including, verification of their identity and qualifications, a satisfactory DBS check and a single central record is kept for audit.

Prevention/Protection

We recognise that the College plays a significant role in the prevention of harm to students by providing students with good lines of communication with trusted adults, supportive friends and an ethos of protection.

The College community will therefore:

- Work to establish and maintain an ethos where students feel secure, are encouraged to talk and are always listened to.
- Include regular consultation with students e.g. through student surveys and Learner Voice.
- Ensure that students know that there is an adult in the College whom they can approach if they are worried or in difficulty.
- Include safeguarding across the curriculum, tutorials and opportunities which equip students with the skills they need to stay safe and know who to turn to for help.

Safe College, Safe Staff

We will ensure that:

- All staff have information about the College's safeguarding arrangements, safeguarding policy and procedures, staff behaviour policy, the role and names of the Designated Safeguarding Lead and Deputies, and Keeping Children Safe in Education. This will apply to the Governing Body in relation to part 2 of the same guidance'
- All staff will receive Safeguarding, Prevent and Online Safety Training at induction, which is regularly updated and will receive updates on safeguarding, online safety, Prevent as required but at least annually.
- All staff and governors have regular safeguarding awareness training, updated by the Safeguarding Team as appropriate, to maintain their understanding of the signs and indicators of abuse.
- The Safeguarding Policy and Procedures, which includes the names of the Safeguarding Team, will be made available via the College website and will be clearly advertised to students, staff and parents/carers
- The College adopts safer recruitment, selection and pre-employment vetting procedures in line with legislation and best practice available.
- The College holds a single central register for all staff and volunteers which lists the checks that have been carried out and the date they were completed.

Roles and Responsibilities

All College Staff:

- Understand that it everyone's responsibility to safeguard and promote the welfare of children and that they have a statutory role to play in identifying concerns, sharing information and taking prompt action
- Are aware of indicators of abuse (Appendix 1)
- Are aware of the Early Help process and understand their role of identifying emerging problems and preventing concerns from escalating
- Know how to respond to a student who discloses abuse and maintain appropriate confidentiality, only involving those who need to know such as the Safeguarding Team and Social Care
- Will never promise a student that they will not tell anyone about a report of abuse
- Will refer any safeguarding concern to the Safeguarding Team or if necessary, where there is immediate risk to the student, to the police or Social Services.
- Should expect to support the Safeguarding Team, social workers and other agencies following a referral
- Consider at all times the best interest of the student
- Have a responsibility to provide a safe environment in which students can learn
- Will be aware of systems within the college which support safeguarding, which is explained as part of staff induction and attend update training offered during CPD
- Have read the current Keeping Children safe in Education part one, Nescot Safeguarding Policy and Procedures and the Behaviour Policy (Code of Conduct)

Student Wellbeing Team:

The Student Wellbeing Team are responsible for ensuring:

- They are the first point of call for all staff and students reporting concerns
- They are available to listen to students during the College day

- They will offer ongoing support to students
- Will deal with individual cases, including record keeping and case notes, ensuring that safeguarding records remain updated
- External agencies are supported with assessment and planning and provided with a report where required
- Students are supported in line their Child Protection Plans, Child in Need plans and Personal Education Plans
- Liaison and first point of call with other agencies that support students and provide early help
- Attendance at conferences and review meetings
- Appropriate referrals are made to external agencies
- Students' confidentiality is respected and information will only be disclosed to other members of staff on a need to know basis.
- Referrals are highlighted to designated staff with lead responsibility for safeguarding (D)DSL'S

Designated staff with responsibility for Safeguarding:

The Designated Safeguarding Lead (DSL) is a senior member of staff from the College Senior Management Team (SMT) and takes lead responsibility for safeguarding. The College has four Deputy Designated Safeguarding Leads (DDSL's) who are trained to the same standard as the DSL. The DSL and DDSL's carries out those functions necessary to ensure the ongoing safety and protection of students by ensuring that:

- The Safeguarding Policy and Procedures are implemented and followed by all staff
- During term time they will be available (during college hours) for staff to discuss safeguarding concerns and will arrange adequate cover for out of hours'/term activities
- Where there is a safeguarding concern, the students' wishes and feelings will be taken into account, when determining what action to take and what services to provide.
- Any disclosures or suspicion of abuse are reported to the appropriate agency, including the police where a crime may have been committed
- They liaise with Local Authorities and work with other agencies and professionals in line with Working Together to Safeguard Children.
- They, or another staff member, will attend case conferences, core groups, or other multi-agency planning meetings, contribute to assessments, and provide a report where required.
- Has an understanding of locally agreed processes for providing early help and interventions and will support members of staff where early help is appropriate.
- There are detailed accurate records, either written or using appropriate online software, of all concerns about a student, even if there is no need to make an immediate referral, which will be kept confidential, stored securely and are separate from student records until a student's 25th birthday.
- They organise Safeguarding and Prevent induction training, annual updates, keep a record of attendance and address any absences.
- Undergo training for the role which will be updated every two years and will keep up with any developments relevant to the role
- An annual report is provided to the Governing Body setting out how the college has discharged its duties.
- They have a working knowledge of the SSCP procedures and will annually submit the 'Audit of Statutory Duties and Associated Responsibilities' to the Education Safeguarding Team.
- They will refer cases where a member of staff is dismissed or left due to risk/harm to a student to the Disclosure and Barring Service

Designated Teacher

The DSL will act as designated teacher and will work with local authorities to promote the educational achievement of looked after children, previously looked after and those who have left care through adoption, special guardianship or child arrangement orders.

Criminal Convictions:

The (D) DSL's will carry out risk assessments of students who declare a prior criminal conviction as outlined in the Safeguarding Procedures. Having a conviction will not bar someone from studying, as this would be dependent upon the background to their offence(s) and if they pose a risk to children and vulnerable adults that access the site. If this is not declared, then potentially the College could withdraw any offer of enrolment.

The Governing Body

All members of the Governing Body understand and fulfil their responsibilities, namely to ensure that:

- They comply with their duties under legislation and guidance as outlined in Keeping Children Safe in Education , to ensure that policies, procedures and training are effective and comply with the law at all times.
- There is a, safeguarding policy, staff behaviour policy (staff code of conduct), recruitment and managing allegation policy and procedures. These are consistent with Surrey Safeguarding Children's Partnership Board and statutory requirements and are reviewed annually, the safeguarding policy is publicly available.
- The College operates a safer recruitment procedure that includes statutory checks on staff suitability to work with students and disqualification by association regulations, by ensuring that there is at least one person on every recruitment panel that has completed safer recruitment training. A member of the Governing body will also complete safer recruitment training every five years.
- The College has procedures for dealing with allegations of abuse against staff (including the Principal) and against other children and that a referral is made to the DBS if a person in regulated activity has been dismissed or removed due to safeguarding concerns, or would have if had they not resigned.
- They liaise with the LA on Child Protection issues in the event of an allegation of abuse made against the College Principal.
- A member of the senior management team has been appointed as the Designated Safeguarding Lead (DSL) to take the lead responsibility for safeguarding and on appointment the (D) DSL's will undertake interagency training (SSCP Modules 1&2) and DSL 'New to Role' including update training every two years.
- All staff are provided with the safeguarding and staff behaviour policy and have read Keeping Children Safe in Education part 1.
- All staff have safeguarding and PREVENT training updated as appropriate.
- Appropriate online filtering and monitoring systems are in place and students are taught about keeping safe online through tutorials.
- Enhanced DBS checks are in place for all Governors.
- Any weakness in Safeguarding are remedied immediately.
- The governing body should put into place appropriate responses to children missing from education.

The Principal will ensure that the above policies and procedures, adopted by Governing Body, particularly concerning referrals of suspected abuse and neglect, are followed by **all** staff.

Multi-agency working

Nescot College works in line with statutory guidance Working Together to Safeguard Children by working with social care, police, health and other services to promote the welfare of students and protect them from harm. This includes providing a coordinated offer of early help, contributing to inter-agency plans and providing additional help to children subject to child protection plans.

The College will allow access to social care workers from the local authority, where appropriate, to conduct, or if considering conducting statutory assessments and will work with the police through Operation Encompass This system ensures that when the police are called to an incident of domestic abuse, where there are children in the household, the police will inform the D/DSL's to enable support to be given.

Information sharing, GDPR and data protection

GDPR/Data protection Act 2018 places duties on organisations and individuals to process information, fairly and lawfully, and to keep the information they hold safe and secure. However, this is not a barrier to sharing information, where to not do so, would result in a student being placed at risk of harm.

- Information sharing is vital in identifying and tackling all forms of abuse
- All staff must be aware that they cannot promise to keep a student's secrets which might compromise their safety or well-being
- Fears about sharing information cannot be allowed to stand in the way of promoting the welfare and protecting the safety of students
- The College recognises that matters relating to safeguarding are personal and will respect confidentiality. The Safeguarding Team will only disclose information about a student to other members of staff on a need to know basis.
- We will always undertake to share our intention to refer a student to social care with their parents/carers unless to do so could put the student at greater risk of harm.
- There are detailed accurate records, either written or using appropriate online software, of all concerns about a student, even if there is no need to make an immediate referral, which will be kept confidential, stored securely and are separate from student records until a student's 25th birthday.

Related College Documents

This policy should not be read in isolation, reference should be made to:

- Anti-bullying Policy
- Code of Conduct for College Staff
- Student Criminal Disclosure Policy
- Fitness to Study Policy
- E-Safety Policy
- Health and Safety Policy and Procedures
- Self-Harm Policy
- Staff Disciplinary Policy
- Student Disciplinary Policy
- Recruitment and Selection Policy
- COVID-19: Safeguarding in schools, colleges and other providers
- Whistleblowing Policy

Who to contact?

If staff are unsure about how to refer to this procedure, they should seek advice and discuss their concerns with the Safeguarding and Wellbeing Team:

- Email: safeguarding@nescot.ac.uk
- Tel: 0208 394 3025

Safeguarding Procedures

The aim of this procedure is to provide a robust framework, to ensure that all staff take appropriate action when they are worried that a student is being abused. It is the responsibility of all staff working within the College, to record and refer safeguarding concerns, even if they are just suspicions or overheard rumours, but they should not discuss this with anyone other than a member of the Safeguarding Team.

All staff must be alert to, and aware of the signs of abuse, these may include changes in behaviour or a failure to perform or develop as expected. However, recognising abuse may be difficult and staff need to take notice not only of major incidents but also other signs which may cause concerns. Further information about the four categories of abuse: physical, emotional, sexual and neglect can be found in appendix 1. Other signs may be due to a variety of factors, for example, a parent has moved out, a pet has died, a grandparent is ill, or an accident has occurred. In these circumstances staff will try to give the student the opportunity to talk. It is fine for staff to ask the student if they are OK or if they can give help in any way

What should be referred to the Safeguarding Team?

Specific safeguarding issues include:

- Abuse and neglect
- Adults at risk
- Children missing education
- Child/Sexual Exploitation (CSE)
- Criminal Exploitation: county lines, criminal behaviour and gang involvement
- Domestic Abuse
- Drugs and alcohol misuse, including legal highs
- Female Genital Mutilation (FGM)
- Forced marriage
- Homelessness/missing from home or care/private fostering
- Honour base violence (so called)
- Mental health/self-harm
- Online safety
- Parental substance abuse, mental health and domestic abuse
- Child on child abuse (sexual violence & harassment, relationship abuse, criminal behaviour)
- Preventing radicalisation and extremism
- Youth produced sexual imagery (sexting)
- Sexual Violence/ Harassment/ Rape Allegations

Students who are particularly Vulnerable

To ensure that all of our students receive equal protection the safeguarding team will offer additional support and will give special consideration to those who are:

- Looked after children and previously looked after children
- On Child Protection Plans
- Children in Need
- Asylum seekers
- Young Carers
- Living away from home/private fostering
- Children in the court systems/YOT/ pending police investigations

If staff become aware of students within these specific group, this information should be referred to the safeguarding team.

What to do if a student makes a disclosure?

A student who makes a disclosure may have to tell their story on a number of occasions to the police and/or social workers. Therefore, it is vital that their first experience of talking to a trusted adult is a positive one.

During their conversation with a student staff will:

- Listen to what the student has to say and allow them to speak freely
- Remain calm and not overreact or act shocked. The student may stop talking if they feel they are upsetting the listener
- Reassure the student that it is not their fault and they have done the right thing in telling someone
- Not be afraid of silences. Staff must remember how difficult it is for the student and allow them to talk
- Take what the student is disclosing seriously
- Ask open questions and avoid leading questions
- Avoid jumping to conclusions, speculation or make accusations
- Not automatically offer any physical touch as comfort. It may be anything but comforting to a student who is being abused
- Avoid admonishing the student for not disclosing sooner.
- Tell the student what will happen next

If the student talks to any member of staff about any risks to their safety or wellbeing the staff member will let the student know that they will have to pass the information on - staff are not allowed to keep secrets.

How to make a referral to the Safeguarding Team?

CPOMS	Place a brief comment into CPOMS, which will automatically be sent to the Safeguarding Team , outlining that a safeguarding concern has been raised.
Email:	Use the dedicated email service: safeguarding@nescot.ac.uk
Telephone:	Duty Number: 0208 394 3025
In Person:	Student Wellbeing centre: N20: Ground floor of the North Wing. This is dedicated area and has an open-door policy with access to the Student Wellbeing Team in a confidential setting. During office hours (Monday to Friday) the Student Wellbeing Team will ensure that all safeguarding referrals are responded to and will be available to speak to students. They will highlight students requiring immediate protection to senior members of the team. Normal working hours: Mon to Fri, 9am to 5 pm
After 5pm:	On weekdays or at the weekend, safeguarding responsibility passes to the Duty Manager Duty Manager: 07973 882981

Allegations against staff

If you have a safeguarding concern about a member of staff working with students which indicates that they have:

- behaved in a way that has harmed or may harm a student
- behaved towards a student in a way that indicates they would pose a risk of harm
- Possibly committed a criminal offence against or related to a student
- Behaved or may behave in a way that indicates they may not be suitable to work with students

This must be reported immediately to:

Assistant Principal HR & Organisational Development	Tel: 0208 394 3318	Email: humanresources@nescot.ac.uk
---	--------------------	---

Low-level concerns and College response arrangements

If staff have a safeguarding concern or an allegation about another member of staff (including agency staff, volunteers or contractors) that **does not** meet the harm threshold then this must still be reported immediately to the Assistant Principal HR & Organisational Development no matter how small or insignificant it may seem.

What is a low-level concern? A low-level concern is any concern that an adult has acted in a way that:

- is inconsistent with the staff code of conduct, including inappropriate conduct outside of work
- doesn't meet the threshold of harm or is not considered serious enough for the school or college to refer to the local authority.
- Low-level concerns are part of a spectrum of behaviour. This includes:
- inadvertent or thoughtless behaviour
- behaviour that might be considered inappropriate depending on the circumstances
- behaviour which is intended to enable abuse.

Examples of such behaviour could include:

- being over friendly with children
- having favourites
- adults taking photographs of children on their mobile phone
- engaging with a child on a one-to-one basis in a secluded area or behind a closed door
- using inappropriate sexualised, intimidating or offensive language.

The College Staff Code of Conduct details how the organisation responds to issues raised around Low Level concerns and supports staff to help them understand:

- what constitutes appropriate and inappropriate behaviour
- what a low-level concern is
- the importance of sharing low-level concerns
- how to report any concerns
- the process for recording, reviewing and responding to concerns.

Allegations of abuse against the Principal

The College has an appointed Governor with special responsibility for Safeguarding, any concerns about the CEO/Principal should be reported immediately to Chris Muller via:

Head of Governance	Tel: 0208 394 3004
--------------------	--------------------

Whistleblowing

The College operates in an ethical and committed way and has a Whistleblowing Policy and Procedure to provide employees with a means for raising genuine concerns. Staff can also use the NSPCC helpline number 0800 028 0285.

Safeguarding Students aged 14-16

Particular care should be taken as these learners are more vulnerable than other students because of their young age:

- Where young people are on the role of another education establishment there should be protocols in place between the College Designated Safeguarding Lead and the Designated Officers at these establishments for communication regarding unexplained absence or other concerns.
- 14 -16-year olds will be appropriately supervised and registered by qualified staff in all areas.
- All 14-16-year-old students will wear a specific lanyard that will highlight their safeguarding risk.
- The College will provide a dedicated space where 14-16-year-old students will attend for their break and lunch periods.

Nescot College has a dedicated person on call who will be informed if a 14-16-year-old:

- Does not return to lesson after break or lunch
- Is seen outside of the designated area at any time
- Is seen leaving the campus

The Designated person for 14 to 16-year olds is:

Director Foundation Learning & Learning Support	Tel: 020 8394 8598
--	--------------------

Use of facilities by members of the general public

Nescot Sports Centre is open as a commercial centre as well as being used by students of Nescot College. We take our responsibility for safeguarding seriously and the following procedures have been put in to place:

- Members will have photographic ID
- Members will have clear guidance that their membership will only provide access to the sports centre and not the whole college site
- Access control barriers are in place, members and students will not be able to gain access without identification
- Visitors will be provided with a visitor's badge. Reception will let Centre Staff know that a visitor is on their way over to the centre. Any visitor that has not arrived within 10 minutes will be reported to security and escorted off of site.
- Changing room facilities will be checked every 30 minutes by Centre Staff
- Centre staff will be present in areas that members are using, students participating in lessons will be supervised by tutors
- Posters will be displayed throughout the centre to inform members/students of who to approach if they have a concern
- The centre has CCTV and is regularly monitored by staff in the reception area
- The Centre Manager will notify the Safeguarding Team of any safeguarding concerns as they arise
- All members will sign terms and conditions prior to joining, these will also be displayed in the reception area of the centre

Innovations & Osteopathy Clinic

- Customers for Innovations will not receive an identification card as these facilities can be accessed directly via reception.
- All staff will receive safeguarding training and will know how to contact the Safeguarding Team if they have a concern.

Visitors to the Osteopathy Clinic will be provided with a visitor's badge, reception will let the relevant person know that a visitor is on their way over to the clinic. Any visitor that had not arrived within 10 minutes will be reported to security and escorted off site.

Safeguarding Briefing Sheet

Whilst working in or on behalf of Nescot College, you have a statutory duty of care towards our learners. This means that at all times you should act in a way that promotes their safety and welfare. If at any time you have a concern about a Nescot learner, particularly if you think that they are at risk of abuse or neglect, it is your responsibility to share your concerns with the College Safeguarding Team. This document is for:

- Temporary and franchise staff
- Third party hire
- Work Experience/ Placements
- Apprentices
- Commercial Services
- Distance Learning

Everyone has a responsibility to: **Recognise – Respond – Report – Record – Refer & PREVENT**

RESPOND	
How to talk to a learner who is disclosing abuse	
<p><u>What you should do</u></p> <ul style="list-style-type: none"> • Listen non-judgmentally and stay calm • Ask open-ended questions to clarify and re-assure, but do not investigate • Do not put words in the Learners mouth • Inform the learner that you must pass on the information but only to those who need to know 	<p><u>What you should NOT do</u></p> <ul style="list-style-type: none"> • Do not promise confidentiality, explain that you may need to discuss with someone else • Do not investigate the matter yourself • Do not convey a sense of judgement or shock • Do not discuss with anyone other than Nescot's Safeguarding Team • Do not take matters into your own hands

<u>REPORT</u> If you suspect abuse	Contact Nescot Safeguarding Team: <ul style="list-style-type: none"> • safeguarding@nescot.ac.uk • Safeguarding Line: 0208 394 3025 • Duty Manager (5 to 9pm) 07973 882981
<u>RECORD</u>	Complete a written report for the Safeguarding Officer, recording the date, time, place and what was said
<u>REFER</u>	The Safeguarding Officer will contact the relevant agencies to ensure that support is given to the Learner. Support from the College's Welfare Team may be sufficient

PREVENT

PREVENT is a strand of the Government counter terrorism strategy – CONTEST. Everyone has a role to play in supporting the aim of CONTEST. You can do this by remaining vigilant and reporting any suspicious activity which can include someone who:

- Is behaving differently for no obvious reason
- Travels for long periods of time but is vague about where they are going
- Buying or storing large amounts of chemicals for no obvious reason
- Visits or sends out links to extremist internet sites
- Is recording and documenting information in a crowded location
- And includes activity at a property that doesn't fit day to day life

Apprenticeships - All learners receive a safeguarding induction, details of support services offered, and the Safeguarding Teams contact details. Assessors will check the apprentices understanding of all aspects of safeguarding and safe working practice at each review. The College has arrangements in place to ensure that, prior to work related activity there are:

- Pre-placement Health and safety checks, including insurance checks
- Employers are made aware of relevant college policies

Distance Learning - All Learners will receive a telephone induction and handbook with details of how to contact the Safeguarding Team.

Work Experience and Placements. The Work Placement Officer will:

- Give all work placement providers safeguarding information
- Ensure all employers sign a work place agreement form to say that they have read and understand their duty to safeguard Nescot's learners.
- Some settings, e.g. early years, will require site visits and risk assessments

The Safeguarding Policy and Procedures apply to all learners on or offsite. Where employer related concerns are raised the Safeguarding Team will liaise with the Head of the Apprenticeship Team, to decide on the appropriate course of action.

Further Information:

- Nescot College Safeguarding policy and procedures can be found at www.nescot.ac.uk
- Health & Safety related to Work Experience
<http://www.hse.gov.uk/youngpeople/workexperience/placeprovide.htm>
- Insurance matters related to Work Experience:

Appendix 1:

Abuse and neglect

Abuse and neglect are forms of maltreatment – a person may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in, the family, an institutional or community setting, by those known to them or by a stranger including via the internet. They may be abused by an adult or adults or by another child or children. An abused child will often experience more than one type of abuse, as well as other difficulties in their lives. Abuse and neglect can happen over a period of time but can also be a one-off event. Child abuse and neglect can have major- long-term impact on all aspects of a child’s health, development and well-being.

There are four main categories of abuse and neglect:

Neglect: Is a pattern of failing to provide for a child’s basic needs, whether it be adequate food, clothing, hygiene, supervision or shelter. It is likely to result in the serious impairment of a child’s health or development. Children who are neglected often suffer from other types of abuse. Neglect is not always easy to identify, and it is important that staff remain alert and not miss opportunities to take timely action. Neglect may occur if a parent becomes physically or mentally unable to care for a child. A parent may have an addiction to alcohol or drugs, which could impair their ability to keep a child safe or result in them prioritising buying drugs, or alcohol, over food, clothing or warmth for the child. Neglect may occur during pregnancy as a result of maternal drug or alcohol use.

Indicators of neglect can include:

- Living in a home that is indisputably dirty or unsafe
- Being left hungry or dirty
- Left without adequate clothing, e.g. not having a winter coat
- Living in dangerous conditions, i.e. around drugs, alcohol or violence
- Students who are often angry, aggressive or self-harm
- Students who fail to receive basic health care
- Parents who fail to seek medical treatment when their child is ill or injured

Physical abuse: Is deliberately physically hurting a child. It might take a variety of forms, including hitting, pinching, shaking, throwing, poisoning, burning or scalding, drowning or suffocating. Physical abuse can happen in any family and occur outside of the family environment. Children may be more at risk if their parents have problems with drugs, alcohol and mental health or if they live in a home where domestic abuse happens. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child. Some of the following signs may be indicators of physical abuse:

- Frequent injuries
- Unexplained or unusual fractures or broken bones
- Unexplained, bruises, cuts, burns, scalds, bite marks

Emotional abuse: Is the persistent emotional maltreatment of a child. It is also sometimes called psychological abuse and it can have severe and persistent adverse effects on the child’s emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate and

not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. Emotional abuse may involve serious bullying - including online bullying through social networks, online games or mobile phones, by a child's peers. The following signs may be indicators of emotional abuse:

- Withdrawn, fearful, anxious about doing something wrong
- Parents or carers who withdraw attention from their child, giving the 'cold shoulder'
- Parents or carers blaming their problems on their child
- Parents or carers who humiliate their child, for example, name calling or making negative comparisons

Sexual abuse: Is any sexual activity with a child. Many victims of sexual abuse do not recognise themselves as such and may not understand what is happening or understand it is wrong. Sexual abuse can have a long-term impact on mental health. Sexual abuse may include physical contact including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing or touching outside of clothing. It may include non-contact activities, such as involving children in the production of sexual images, being forced to look at or watch sexual images and activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The following signs may be indicators of sexual abuse:

- Knowledge or interest in sexual acts inappropriate to their age
- Use of sexual language or sexual knowledge that you wouldn't expect them to have
- Asking others to behave sexually or play sexual games
- Physical sexual health problems, including soreness in the genital and anal areas, sexually transmitted infections or underage pregnancy

Adults at risk

An 'adult at risk' is defined by the Department of Health as a person aged 18 years or older who is or may be in need of community care services by reason of mental or other disability, age or illness; and who is or may be unable to take care of him or herself, or unable to protect him or herself against significant harm or exploitation

Characteristics/factors that might make someone more at risk of harm include:

- Not having mental capacity to make decisions about their own safety – including having fluctuating mental capacity associated with mental illness
- Communication difficulties
- Physical dependency – being dependent on others for personal care and activities of daily life
- Low self-esteem
- Experience of abuse
- Childhood experience of abuse
- Being cared for in a care setting where they are more or less dependent on others
- Not getting the right amount or the right kind of care that they need
- Living in a family with multiple problems

- Isolation and social exclusion
- Stigma and discrimination
- Lack of access to information and support
- Being the focus of anti-social behaviour

An adult at risk is someone who is unable to take care of him or herself, or unable to protect him or herself against significant harm or exploitation. One way to evaluate whether or not someone can take care of themselves is to assess their mental capacity to make decisions about their own safety. In the safeguarding context, mental capacity is the ability of a person to:

- Understand the implications of their situation and the risks to themselves
- Take action themselves to prevent abuse
- Participate to the fullest extent possible in decision making about interventions involving them, be they life-changing events or everyday matters

There are also a number of specific safeguarding concerns that we recognise our students may experience, these include:

Children Missing Education

All staff should be aware that students going missing, particularly repeatedly, can act as a vital warning sign of a range of safeguarding possibilities. They may include abuse and neglect, sexual or criminal exploitation. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of FGM or forced marriage. The College has an attendance policy and procedures. Performances Coaches and Tutors will intervene early, and the College will feedback data on withdrawn students to the local authority.

Child Sexual Exploitation (CSE)

Is a form of sexual abuse where children are sexually exploited for money, power or status. It can involve violent, humiliating and degrading sexual assaults. In some cases, young people are persuaded or forced into exchanging sexual activity for money, drugs, gifts, affection or status. Consent cannot be given, even where the child may believe they are voluntary engaging with sexual activity with the person who is exploiting them. Child Sexual Exploitation doesn't always involve physical contact and can happen online. A significant number of children who are victims of sexual exploitation go missing from home, care and education at some point. Some of the following signs may be indicators of sexual exploitation:

- Appearing with unexplained gifts or new possessions
- Associating with other young people involved in exploitation
- Older boyfriends or girlfriends
- Sexually transmitted infections or pregnancy
- Changes in emotional well-being
- Misusing drugs and alcohol
- Missing for periods of time or regularly returning home late
- Regularly missing education or don't take part in education

Criminal exploitation, County lines

Criminal exploitation of children is a geographically widespread form of harm that is a typical feature of county lines criminal activity: drug networks or gangs, groom and exploit children and young people to carry drugs and money from urban areas to suburban areas and rural areas, market and seaside towns. Key to identifying potential involvement in county lines is missing episodes when the victim may have been trafficked for the purpose of transporting drugs. Like other forms of abuse county lines exploitation can:

- Affect young people (male or female) under and over the age of 18
- Still be exploitation even if the activity appears to be consensual
- Involve force, enticement-based methods of compliance and if often accompanied by violence or threats of violence
- Be perpetrated by individuals, groups, males, females, young people and adults
- Be typified by some form of power imbalance in favour of those perpetrating the exploitation. Whilst age may be the most obvious, power imbalance can be due to other factors such as gender, cognitive ability, physical strengths, status and access to economic or other resources

Guidance for frontline professionals on dealing with county lines;
<https://www.gov.uk/government/publications/criminal-exploitation-of-children-and-vulnerable-adults-county-lines>

Domestic Abuse

The cross-government definition of domestic violence and abuse is: any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. The abuse can encompass, but is not limited to:

- Psychological
- Physical
- Sexual
- Financial
- Emotional

Exposure to domestic abuse and/or violence can have serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. Domestic abuse affecting young people can also occur within their personal relationships, as well as in the context of their home life.

Advice on identifying children who are affected by domestic abuse is available at:
<https://www.nspcc.org.uk/preventing-abuse/child-abuse-and-neglect/domestic-abuse/signs-symptoms-effects/>

Drugs and alcohol misuse, including legal highs

It is not uncommon for teenagers to try drugs or drink alcohol in their teenage years. For some they may experiment and make the positive choice not to participate but, there are also those who become dependent on drugs or alcohol. It's important to know the difference between drug abuse and addiction. If you become concerned that a student is harming themselves or at risk of harm through alcohol or substance misuse. This can include being parented or being cared for by an adult that abuses drugs or alcohol then refer to the Safeguarding Team.

Do NOT refer to safeguarding if the student:

- Is under the influence of drugs or alcohol (follow disciplinary procedure). **DoF should be informed and the student asked to leave site.**
- Requires medical attention - **contact the college nurse.**
- Is in possession of drugs or alcohol - contact **security.**

Female Genital Mutilation (FGM)

FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female organs. It is illegal in the UK and a form of child abuse with long-lasting consequences

FGM mandatory reporting duties for teachers

Teachers must personally report to the police cases where they discover that an act of FGM appears to have been carried out by calling 101. Unless the teacher has good not reason not to, they should discuss such cases with the safeguarding team. The duty does not apply in relation to at risk or suspected cases.

Information on when and how to make a report can be found at:

<https://www.gov.uk/government/publications/mandatory-reporting-of-female-genital-mutilation-procedural-information>

Forced Marriage

A forced marriage is a marriage in which one entered into without full and free consent, of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into marriage. Threats can be physical or emotional and psychological. A lack of full consent can be where a person does not consent or where they cannot consent (if they have learning difficulties for example). Some communities use religion and culture as way to coerce a person into marriage. College staff should never attempt to intervene directly.

Refer to the safeguarding team who will contact the Forced Marriage Unit 200 7008 0151. Further information can be found at: <https://www.gov.uk/guidance/forced-marriage#forced-marriage-unit>

So called 'Honour-based' Abuse (HBA)

Honour based violence (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including FGM, forced marriage,

and practices such as breast ironing. Abuse committed in the context of preserving 'honour' often involves a wider network of family or community pressure and can include multiple perpetrators. All forms of HBA are abuse (regardless of the motivation) and staff should refer their concerns to the safeguarding team who will activate the local safeguarding procedures, using national and local protocols for multi-agency liaison.

Homelessness/Children missing from Home

Students may run away from a problem, such as abuse or neglect at home, or to somewhere they want to be. They may have been coerced to run away by someone else. Whatever the reason, it is thought that approximately 25 per cent of children or young people that go missing are at risk of serious harm. There are particular concerns about the links between children running away and the risks of sexual exploitation. Missing children may also be vulnerable to other forms of exploitation, violent crime, gang exploitation, or drug and alcohol misuse.

Being homeless or being at risk of becoming homeless presents a real risk to a student's welfare. The homeless reduction Act 2017 places new duties on the LA to provide those who are homeless or at risk of homelessness to have an assessment of their needs and circumstances, the development of a personalised housing plan, and work to help them retain their accommodation or find a new place to live. It should also be recognised that some 16 to 17-year olds could be living independently from their parents or carers, for example through their exclusion from the family home, and will require a different level of intervention and support. Children's Services will be the lead agency; the safeguarding team will ensure that appropriate referrals are made based on the student's circumstances.

Private fostering – occurs when a child under the age of 16 (18 if disabled) is provided with care and accommodation by a person who is not a parent, person with parental responsibility for them or a relative in their own home. A child is not privately fostered if the person caring for and accommodating them has done so for less than 28 days and does not intend to do so for longer. Such arrangements may come to the attention of staff. The Safeguarding Team will need to be notified and will inform the local authority who will check if the arrangement is suitable and safe.

Online Safety

Our students increasingly use electronic equipment on a daily basis to access the internet and share content and images via social media sites such as Facebook, Twitter, Instagram and Snap Chat. Unfortunately, some adults and other children use these technologies to harm others. The harm might range from sending hurtful or abusive texts or emails, to grooming and enticing students to engage in sexual behaviour such as webcam photography or face-to-face meetings. Students may also be distressed or harmed by accessing inappropriate material such as pornographic websites or those which promote extremist behaviour, criminal activity, suicide or eating disorders.

Nescot has an online safety policy which explains how we try to keep students safe in College and how we respond to online safety incidents. The college uses a software to block material at source, which the college does not wish students or staff to view. It also uses a reporting mechanism of key words, to enable the E-safety Officer to identify and discuss potential on-line abuse or misuse. The college online safety co-ordinator is Rob Greening.

Parental substance abuse, mental health and domestic abuse

The term 'toxic trio' has been used to describe the issues of domestic violence, mental ill-health and substance misuse which have been identified as common features of families where harm to women and young people has occurred. These issues are viewed as indicators of increased risk of harm.

Peer on Peer Abuse

In most instances, the conduct of students towards each other will be covered by our behaviour policy. However, some allegations may be of such a serious nature that they may raise safeguarding concerns. Peer on peer abuse can take on many forms this can include:

- Domestic Abuse – an incident or pattern of actual or threatened acts of physical, sexual, financial and/or
- Child Sexual Exploitation – children under the age of 18 may be sexually abused in the context of exploitative relationships and situations by peers who are also under 18.
- Harmful Sexual Behaviour – Children and young people presenting with sexual behaviours that are outside of developmentally 'normative' parameters and harmful to themselves and others
- Serious Youth Violence – Any offence of the most serious violence or weapon enabled crime, where the victim is aged 1-19' i.e. murder, manslaughter, rape, wounding with intent and causing grievous bodily harm. 'Youth violence' is defined in the same way, but also includes assault with injury offences.
- Sexual violence can include rape, assault by penetration and sexual assault
- Sexual Harassment -unwanted conduct of a sexual nature
- Upskirting – where someone takes a picture under a person clothing (not necessarily a skirt) without their permission or knowledge, with the intention of viewing for sexual gratification or to cause victim humiliation, distress or alarm.

The term peer-on-peer abuse can refer to all of these definitions and a student may experience one or multiple facets of abuse at any one time. Therefore, our response will cut across these definitions and capture the complex web of their experiences. There are also different gender issues that can be prevalent when dealing with peer on peer abuse (i.e. girls being sexually touched/assaulted, or boys being subjected to initiation/hazing type violence).

Any concerns, disclosures or allegations of peer on peer abuse in any form should be referred to the Safeguarding Team. Where there is a report of rape, assault by penetration or sexual assault made all investigation will be stopped and passed on to the police. Further guidance published by the NSPCC on when to call the police can be found via the link below:

<https://www.npcc.police.uk/documents/Children%20and%20Young%20people/When%20to%20call%20the%20police%20guidance%20for%20schools%20and%20colleges.pdf>

If a student's behaviour negatively impacts on the safety and welfare of other students, then safeguards will be put in place to promote the well-being of the students affected. Further actions could include a disciplinary hearing, robust risk assessments and targeted work for students identified as being a potential risk to other students and those identified as being at risk.

Youth produced sexual imagery (sexting)

The practice of children (under the age of 18) sharing images and videos via text message, email, social media or mobile messaging apps has become commonplace. However, this online technology has also given children the opportunity to produce and distribute sexual imagery in the form of photos and videos. Such imagery involving anyone under the age of 18 is illegal.

Youth produced sexual imagery refers to both images and videos where;

- A person under the age of 18 creates and shares sexual imagery of themselves with a peer under the age of 18
- A person under the age of 18 shares sexual imagery created by another person under the age of 18 with a peer under the age of 18 or an adult
- A person under the age of 18 is in possession of sexual imagery created by another person under the age of 18

Cases where sexual imagery of people under 18 has been shared by adults and where sexual imagery of a person of any age has been shared by an adult to a child is child sexual abuse and should be responded to accordingly.

If a member of staff becomes aware of an incident involving youth produced sexual imagery, they should confiscate the device involved and set it to flight mode or, if this is not possible, turn it off. Staff should not view, copy or print the youth produced sexual imagery but refer to the E-safety Officer via the Safeguarding Team.

The E-safety officer will hold an initial review meeting with appropriate school staff and subsequent interviews with the children involved (if appropriate). Parents should be informed at an early stage and involved in the process unless there is reason to believe that involving parents would put the child at risk of harm. At any point in the process if there is concern a young person has been harmed or is at risk of harm a referral should be made to Children's Social Care or the Police as appropriate.

Immediate referral at the initial review stage should be made to Children's Social Care/Police if;

- The incident involves an adult
- There is good reason to believe that a young person has been coerced, blackmailed or groomed or if there are concerns about their capacity to consent (for example, owing to special education needs)
- What you know about the imagery suggests the content depicts sexual acts which are unusual for the child's development stage or are violent
- The imagery involves sexual acts
- The imagery involves anyone aged 12 or under
- There is reason to believe a child is at immediate risk of harm owing to the sharing of the imagery, for example the child is presenting as suicidal or self-harming.

If none of the above apply then the e-safety officer will use their professional judgement to assess the risk to pupils involved and may decide, with input from the DSL, to respond to the incident without escalation to Children's Social Care or the police.

The College Online Safety Co-ordinator is Director of PDB & W.

Students with Social Workers: Looked after children (LAC), previously looked after children, care leavers and unaccompanied asylum seekers, Children in Need and those on Child Protection Plans

The most common reason for children becoming looked after is a result of abuse and/o neglect. A previously looked after child potentially remains vulnerable. The safeguarding Team will record information in relation to a child's looked after status (whether they are looked after under voluntary arrangements or with consent from parents or on an interim of full care order). When dealing with looked after children and previously looked after, it is important that all agencies work together, and prompt action is taken to safeguard these children. If staff become aware that a child becomes looked after it is important that they highlight this to the safeguarding team.

- **Designated Teacher and Directors of Faculties** - The DSL is the designated teacher and is responsible alongside the Director of Faculties for promoting their educational achievement,
- **The student Wellbeing Coaches** - will provide ongoing support to learners, acting as a first point of contact for external agencies and will co-ordinate meetings on behalf of the college.
- **All staff** are responsible for ensuring that they attend PEP/Review meetings when requested by the Safeguarding Team. The expectation would be that if staff are unable to attend then DoF/HoD will attend in their place.

Young Carers

A carer provides unpaid care for a family member or friend who has a long-term physical or mental health problem, disability, or a drug or alcohol dependency. Some are the main carers in the household; others supplement the caring undertaken by other members of the family. The caring tasks can include:

- **Domestic tasks** (e.g. cooking, cleaning, shopping)
- **Personal care** (e.g. helping with mobility; washing; dressing; giving medicine)
- **Emotional support & supervision** (e.g. watching over someone; providing company and a 'listening ear')
- **Sibling care:** Looking after an ill or disabled sibling or a non-disabled sibling where an ill or disabled parent is unable to provide care
- **Communication support** (e.g., interpreting; answering phone or door)
- **Financial management:** (e.g. budgeting; paying bills)

Many young carers do not realise that they are carers until they perceive the impact of their responsibilities upon their lives. Even if that impact causes significant discomfort or problems, many young people do not identify themselves as carers. For this reason, Young Carers are designated by OFSTED as a vulnerable group of students and they recommend their identification and support as best practice, making necessary adjustments where able. If you become aware of a student with a caring responsibility inform the Safeguarding Team who will offer ongoing mentoring and referral to external agencies if appropriate

Nescot Prevent Policy

This Prevent Policy applies to everyone working at or enrolled at Nescot College, it is designed to provide a clear framework for all staff to respond to safeguarding concerns for those students who may be vulnerable to the message of extremism.

The purpose of this policy is to:

- Ensure an awareness of Prevent within the college
- Provide a clear framework to structure and inform our response to radicalisation
- To provide a framework to embed British Values into the curriculum
- Recognise current practice which contributes to the Prevent agenda

Background Information

Prevent is one of four strands of the Government's counter-terrorism strategy – CONTEST. The UK currently faces a range of terrorist threats. Terrorist groups who pose a risk to the UK seek to radicalise and recruit people to their cause. Therefore, early intervention is the heart of Prevent which aims to divert people away from being drawn into terrorist activity. Prevent happens before any criminal activity takes place by recognising, supporting and protecting people who might be susceptible to radicalisation. The Prevent Duty confers mandatory duties and responsibilities on a range of public organisations, including Further Education Colleges.

Definitions

British Values of democracy, rule of law, liberty and respect and tolerance of different faiths and beliefs

CONTEST is the government's counter-terrorism strategy and places a legal duty on certain bodies in the exercise of their functions, to have 'due regard to the need to prevent people from being drawn into terrorism'. The four elements are, Prevent, Pursue, Protect, and Prepare. It aims to stop people becoming terrorists or supporting terrorism.

Extremism is the vocal or active opposition to our fundamental British Values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. This also includes the call for the death of members of the armed forces, whether in this country or overseas.

Ideology is a set of beliefs

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism that may lead to terrorism or criminal involvement.

CHANNEL is a key element of the Prevent strategy and is a multi-agency approach to protect people at risk of radicalisation. Channel uses existing collaboration between local authorities, statutory partners the police and the local community to:

- Identify individuals at risk of being drawn into terrorism
- Assess the nature and extent of that risk

- Develop the most appropriate support plan for those concerned

Channel is about safeguarding children and adults from being drawn into committing terrorist-related activity. It about early intervention to protect and divert people away from the risk they face before illegality occurs

Understanding and recognising risks and vulnerabilities of radicalisation

Students may become susceptible to radicalisation through a range of social, personal and environmental factors – it is known that violent extremists exploit vulnerabilities in individuals to drive a wedge between them and their families and communities. It is vital that all college staff are able to recognise those vulnerabilities.

The ways in which students can be radicalised include

- Via family members and friends
- Direct contact with extremist groups
- Contact via the internet

Safeguarding our students from radicalisation is no different from safeguarding them from other forms of harm. Additional indicators for vulnerabilities to radicalisation include

- Identity Crisis – distant from cultural/religious heritage and experiences discomfort about their place in society.
- Personal Crisis – experiencing family tensions a sense of isolation; low self-esteem; may have discounted from friendship group and become involved with a new and different group of friends; may be searching for answers to identity, faith and belonging.

More critical risk factors could include:

- Being in contact with extremist recruiters;
- Accessing violent extremist websites, especially those with a social networking element
- Possessing or accessing violent extremist literature
- Using extremist narratives and a global ideology to explain personal disadvantage
- Justifying the use of violence to solve societal issues
- Joining or seeking to join extremist organisations
- Significant changes to appearance and / or behaviour
- Experiencing a high level of social isolation resulting in issues of identity crisis and / or personal crisis
- Direct contact with extremist groups
- Contract via the internet

Examples of extremist caused that have used violence to achieve their ends include:

- Animal rights
- The far right

- Internal terrorism
- International terrorist organisations

Roles and Responsibilities

This policy is integral to our Safeguarding Policy and should be applied as an extension the Colleges current and established safeguarding procedures.

College Leadership and Governance

All board members have a legal responsibility under the Prevent Duty to make sure they have undertaken training in Prevent, additionally they should ensure that:

- All College staff have undertaken training in Prevent Duty
- All College staff are aware of how to make a referral to the Safeguarding Team
- All College staff exemplify British Values into their teaching
- Policies and procedures are in place to implement the Prevent Duty

Prevent Lead for the College, Supported by the Safeguarding Team

The Director of Personal Development, Behaviour and Welfare is responsible for ensuring:

- that our Prevent Policy is implemented across the college
- That any concerns are shared with the relevant organisation, in order to minimise the risk of our learners becoming involved with terrorism.
- All new members of staff will receive Prevent training as part of their induction training
- Make referrals to CHANNEL if appropriate
- The Governors are presented with a termly report to discuss Safeguarding and Prevent concerns raised and changes to the Duty that effect the College.

All staff

All staff at the College have a responsibility to:

- Create an ethos that promotes British Values, to create an environment of respect, equality and diversity and inclusion
- Attend Prevent training in order to have the skills to recognise those who may be vulnerable to radicalisation, involved in violent or non-violent extremism, and to know the appropriate action to take if they have concerns
- Report any concerns around extremism or radicalisation via the safeguarding procedures
- Support the development of staff and learner understanding of the issues around extremism and radicalisation
- Participate in engagement with external organisations as appropriate

Teaching and Learning

To provide a curriculum that promotes British Values, by undermining extremist ideology and supporting the learning voice. This will be achieved through:

- Embedding British values, equality, diversity and inclusion, wellbeing and community cohesion throughout the curriculum

- Promoting social and emotional aspects of learning
- A curriculum adapted to recognise local needs, challenge extremist narratives and promote universal rights
- Encouraging active citizenship and learner voice

Referral and intervention process:

Any member of staff at Nescot who have any concerns regarding radicalisation should report these immediately to the Safeguarding Team:

Via:	CPOMS
Email:	safeguarding@nescot.ac.uk
Tel:	0208 394 3025

Self-harm policy and procedure

Purpose

In keeping with the College's values, vision and aims, this policy and procedure aims to guide staff in how best to support students who self-harm, ensuring consistency throughout the College.

What is self-harm?

The term self-harm is often used as an all-encompassing term referring to suicidal thoughts, attempted suicide and self-injury. These can be sub-grouped into the following:

- Harming Behaviour: could result in long-term harm e.g. over/under eating, drug misuse, binge drinking
- Self-injury: deliberately harming or injuring oneself e.g. cutting, burning, hair pulling and other acts of self-mutilation. Self-injury is seen as a coping mechanism with the aim of relieving emotional distress. Although self-harm is relied upon as an attempt to cope and manage and may not be intentionally suicidal, it must be recognised that the emotional distress, that leads to self-harm can also lead to suicidal thoughts and actions.
- Suicide: is an intentional, self-inflicted, life threatening act resulting in death from a number of means
- Suicidal intent: is indicated by evidence of premeditation (such as saving up tablets), taking care to avoid discovery, failing to alert potential helpers, carrying out final acts (such as writing a suicide note) and choosing a violent or aggressive means of deliberate self-harm allowing little chance of survival.

Students with Special Educational Needs and Disabilities (SEND): can display what are perceived by others as self-harming behaviours, there may be other functions of the behaviour to consider e.g. to achieve certain stimulation. By definition, young people with learning disabilities have impaired communication and it is not uncommon for a young person to hit or bite themselves, when feeling frustrated or not understood. Or it may be to enlist help, e.g. physical pain such as an ear infection, may be expressed by hitting their ear. It is therefore important to find out what is being communicated with this behaviour.

What to do if a student has disclosed that they have self-harmed?

It is essential that you assess the immediate risk the student may be in:

- **First resolve the physical issue and treat as a FIRST AID incident.** If the student requires medical attention, contact the College Nurse or a First Aider. They will assess any injuries and provide appropriate treatment if the injuries are minor. A referral to accident and emergency may be necessary, if the harm is considered a danger to an individual's health, either mentally

or physically. The parents must be informed unless staff feel that informing the parents will put the student at risk.

- **If the student does not require medical treatment:** then staff should follow the safeguarding procedure. It is vital to make a written log of all incidents of self-harm on CPOMS. This will be sent directly to the Safeguarding and Wellbeing Team. If you do not have access to CPOMS then email safeguarding@nescot.ac.uk or call: 0208 394 3025

Good practice guidelines

Listen

- To what the student says in order to check whether they want help and if so, what help is required
- Respect their choices, do not impose your own agenda onto the student, unless they are a danger to themselves or others
- Remain calm and non-judgemental

Consider

- Staff must not take the responsibility of resolving the underlying issues or stopping the self-harming behaviour
- Do not make promises of confidentiality, let the student know that the information will need to be shared with the Safeguarding and Wellbeing Team
- Try to contain your own anxiety, remember that self-harm is a coping strategy, if you insist, they stop, you may be removing the only coping mechanism they have
- Beware of escalating the issue out of proportion
- Remember the impact of self-harming behaviour on other students and provide support if necessary

Respond

- Make contact with the College Nurse or the nearest First Aider
- If there is risk of suicide or life-threatening self-harm, the student needs to be referred to A & E.
- Make a record of the incident on CPOMS which will automatically be sent to the Safeguarding and Wellbeing Team.

Remember

- To look after yourself whilst supporting someone else
- Take care of your own emotional wellbeing and seek support if necessary
- Be self-aware, don't get burned out or take on anything you don't feel comfortable with
- Maintain boundaries, for example it is unrealistic for you to be on call for someone in need all the time

Role of the College Nurse

The College Nurse provides a daily drop-in service and will support students with a range of health issues. Emotional problems and self-harm feature significantly in the nurse's workload and where appropriate liaison will occur with the Safeguarding and Wellbeing Team. The nurse plays an important role in helping to manage students who are at risk of self-harm or actually self-harming.

Role of the Safeguarding and Wellbeing Team When a disclosure of self-harm is made, it will be assessed by a member of the Safeguarding and Wellbeing Team, who will decide on the appropriate course of action. Decisions around threshold will be made, in line with the college safeguarding policy, parents will be spoken to, unless doing so will place the student at risk.

The student will either be referred to the GP, A& E, MASH, CAMHS or an in-house member of the Safeguarding and Wellbeing Team. This will depend on an assessment of the current risk the student is exposed to. All Students, where a concern has been raised, will be monitored and reviewed and in some instances, the fitness to study procedure will be implemented.

Fitness to Study

All staff should be aware that, after a crisis situation or absence from college for mental health recuperation, the student will need to attend a meeting to assess their fitness to return to study.

Local and National Help and Advice

Help in a crisis:

- Contact your own GP (Doctor)
- Visit the Accident and Emergency (A&E) department
- Contact the NHS First Response Team on 111, option 2, to speak directly with a mental health professional
- Call the Samaritans (24-hour helpline) on 116 123

Havens in Surrey offer a drop-in service for those experiencing crisis or distress

Sexual Harassment

When referring to sexual harassment we mean unwanted conduct of a sexual nature that can occur online and offline. Whilst not intended to be an exhaustive list, sexual harassment can include: sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names; sexual “jokes” or taunting.

Nescot recognises that sexual harassment creates an atmosphere that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence. In most instances, the conduct of students towards each other will be covered by our behaviour policy. However, some allegations may be of such a serious nature that they may raise safeguarding concerns. All reports of sexual harassment will be investigated and followed up with disciplinary action where necessary and if proven.

Sexual Harassment MUST be reported to the Director of Faculty and the Director for Personal Development, Behaviour and Welfare (Rob Greening), as highlighted in the Anti-Bullying Policy.

Sexual Violence

When referring to sexual violence we are referring to sexual offences under the Sexual Offences Act 2003 as described below:

- Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent* to the penetration and A does not reasonably believe that B consents.
- Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.
- Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.

Consent: is providing permission for something to happen or agreeing to do something with a full awareness and understanding of the facts and without coercion. In cases of sexual activity, consent cannot be presumed but must be explicitly given each time verbally or non-verbally. Consent cannot be deemed to have been given if it is provided under pressure, or in situations where someone is not capable of providing it such as when they are drunk, under the influence of drugs, asleep, unconscious, are physically or mentally unable to make a choice and understand the consequences. Consent can be withdrawn at any time.

Reports of sexual violence

A student should never be given the impression that they are creating a problem by reporting sexual violence. It is essential that students reporting sexual violence are protected, offered appropriate support and every effort is made to ensure their education is not disrupted.

- The police will be important partners where a crime might have been committed. Where a report of sexual violence is made, the starting principle is that this should be referred on to the police.
- Where a student under 18 has been harmed, is at risk of harm, or is in immediate danger, a referral will be made to children's social care.
- Parents or carers will be informed unless there are compelling reasons not to, for example, if informing a parent or carer is likely to put a student under 18 at additional risk.
- Where a report is made to children's social care and/or the police, then, the college will speak to the relevant agency and discuss next steps and how the alleged perpetrator will be informed of the allegations.

Risk assessment

The safeguarding team will make an immediate risk and needs assessment, this will consider:

- the victim, especially their protection and support
- the alleged perpetrator; and
- the expectations regarding their behaviour and any restrictions the college thinks are reasonable and proportionate with regard to the perpetrator's timetable
- how best to keep the victim and alleged perpetrator apart on college premises and on transport to and from college where appropriate
- all the other students and staff at the college

Responding to the report

There may be reports where the students concerned attend two or more different schools or colleges. In such circumstances, appropriate information sharing and effective multi-agency working will be especially important.

If a police investigation is commenced, the College will consider whether an internal investigation is required or if already underway, whether the internal investigation should be paused whilst the police investigation is undertaken.

In all but the most exceptional of circumstances, sexual violence is likely to constitute a serious breach of discipline (gross misconduct) and lead to the view that allowing the perpetrator to remain in the same college would seriously harm the education or welfare of the victim (and potentially other pupils or students).

Where the perpetrator is going to remain at the college, the principle would be to continue keeping the victim and perpetrator in separate classes and continue to consider the most appropriate way to

manage potential contact on college premises and transport. The nature of the conviction or caution and wishes of the victim will be especially important in determining how to proceed in such cases.

Criminal Disclosure Policy

Nescot College actively promotes equality of opportunity for all with the capacity to benefit from vocational or academic study and we welcome all such potential students and trainees, including those with a criminal conviction. It is therefore necessary to collect information on criminal convictions and any prosecutions pending from all students (both applicants and enrolled) to ensure enrolment on a suitable course, while maintaining the Colleges duty to provide a safe and secure environment for all its students, staff and visitors. In order to do this, we will consider the nature of the programme and the circumstances and background to the offence alongside the requirements of various professional bodies and legislation to protect special categories of people.

Purpose

- To provide protection to the people and property within the Nescot College community and any vulnerable persons who may come into contact with students pursuing their studies at the college
- To have regard to specific duties of the College in relation to certain careers or professions which students on our programmes may enter
- To ensure fair treatment of all applicants and students ensuring that the College follows the values enshrined in the Rehabilitation of Offenders Act 1974
- To ensure records are kept secure and confidential

Students and Applicants

Nescot College has a duty of care to our staff and students and therefore all applicants and enrolled students are required to disclose unspent convictions. Any applicant who declares a criminal conviction as part of the admissions process will firstly have their application assessed on academic grounds before being asked to provide further information.

Summary of process:

- All students will be asked to declare if they have any criminal convictions at the time of application and/or enrolment.
- If students tick yes on the application or enrolment form, they will be required to complete a criminal disclosure form. This can be submitted electronically to: safeguarding@nescot.ac.uk or if completing a paper copy, the student should ensure this is placed in an envelope and marked for the attention of the Head of Student Wellbeing.
- A decision as to the continuation of the application/enrolment will be authorised by the appropriate member of the Safeguarding Team.
- Only the Director of Personal Development, Behaviour & Welfare (DSL), or the Head of Student Wellbeing and the Student Wellbeing Coaches, (DDSL's) will know the nature of a student's conviction.
- All disclosures by students will be treated with a high degree of discretion and will not be disclosed to other members of College staff unnecessarily.
- A risk assessment will be undertaken if necessary, the applicant will be contacted to contribute to this
- Any decision made will be conveyed to the applicant as quickly as possible

- The College may withdraw an offer of enrolment due to attempted or actual avoidance of relevant disclosure.

Enrolled Students

- If the student is already enrolled on a study programme at the time of a conviction, they must inform one of the Student Wellbeing Coaches
- If a member of staff becomes aware of this, they should directly notify one of the Student Wellbeing Coaches.
- If the offence is committed in connection to being a student, College disciplinary action and restrictions may follow, however the college will aim to take a fair and proportionate step not to place unnecessary additional penalties on a student who has already received a criminal sanction for their behaviour.
- The College may consider attempted or actual avoidance of relevant disclosure at the appropriate time a disciplinary offence.

Spent Convictions/Students on Professional Programmes

When a student is studying on a programme which leads to a qualification that entitles them to work in a profession that is exempt from the Rehabilitation of offenders Act 1974, or when the student is undertaking whilst at college, work with children or vulnerable adults as part of their course they will be required to disclose spent convictions. Professions exempt from the Rehabilitation of offenders Act 1974 include: Teaching, Childcare, Health & Social Care, Sports Therapy, Osteopathic Medicine, any other course requiring one-to-one work with members of the public.

All students on these courses will be required to disclose spent & unspent convictions, sentences, cautions, verbal cautions, reprimands, final warnings and bind over orders. Disclosure and Barring checks are also required.

Confidentiality and Data Protection

- The declaration form will normally only be available to the staff listed below
- The college works with external agencies to support people applying to college and subsequently to attend college. You will be asked on your disclosure form to provide us with the names of agencies supporting you and if you consent to the College sharing information.
- On occasions it may be necessary to share your information with curriculum staff and support staff.
- In line with the College record data keeping procedures, all disclosure forms will be classified as “sensitive data’ and files will be kept separately to your student file.

Staff with Access to the Declaration Form

- (DSL) Director of Personal Development Behaviour & Welfare
- (DDSL) Head of Student Wellbeing

Appeal Any applicant who has been refused enrolment on their chosen course of study, as a result of the assessment of their disclosure and who wishes to appeal, should do so in writing within 7 days of receiving the decision to: Director of Personal Development Behaviour & Welfare, Nescot College, Reigate Road, Epsom, KT17 3DS.
